

Remote Temperature Gauge - T0006

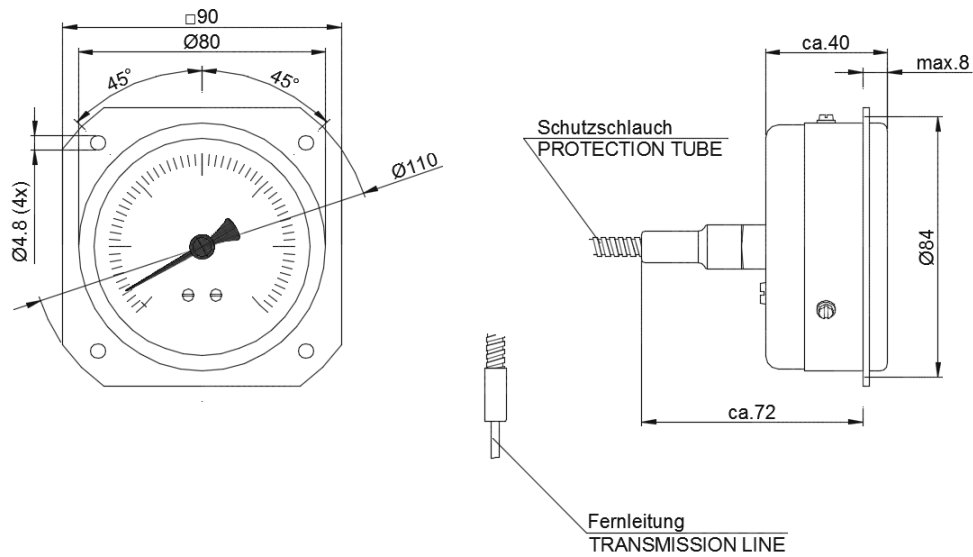

- Nominal size: 80mm
- Mechanical, unmagnetic, maintenance-free
- Shock and vibration resistant as per BV 043/044
- Motion work with dampened axis
- frontal rim for mounting on board

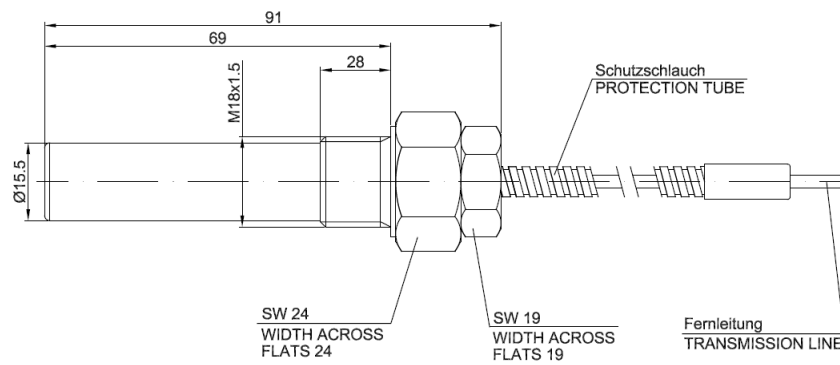

Applications Shipbuilding, naval shipbuilding, heating and air-conditioning technology, environmental and process technology, plant construction.

Media No contact with the measuring medium.

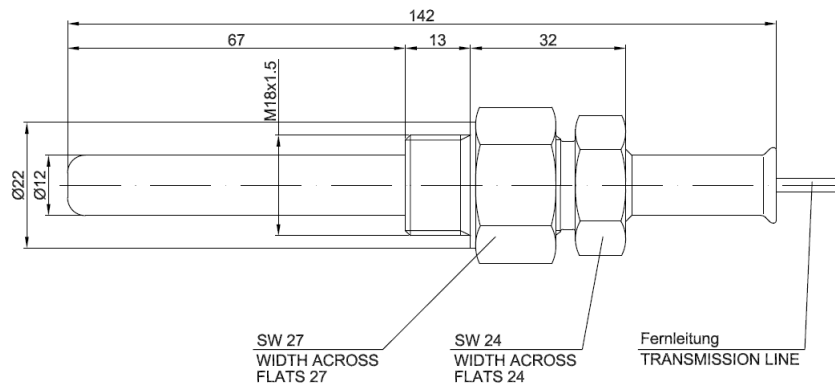

Specifications		
connection position	centre back, with transmission line	
bourdon tube	volute spring	
mounting position	90°	
	*other options on request	
precision class	1 as per DIN EN 837-1	
	*other options on request	
transmission medium	nitrogen	
permanent pressure	100% end of scale	
short time overpressure	with overpressure protection	
temperature feeler	T0007 (0-120°C, M18x1,5) T0009 (temperatures over 500°C, M18x1,5) T0013 (0-120°C, M22x1,5)	
Technical Limitations		
	min	max
measuring range	depending on temperature feeler	
length of transmission line	1m	10m
weight	0,8 kg (without transmission line)	
Material		
casing	brass	
wetted parts	stainless steel with synthetic coating	
window	security glass, etched on one side	
Additional Options		
coloured sections on scale	red/yellow/green	
red markings	on any specified place of the scale	
customized scale	yes/no
